 Bcc: Sandesh Ghimire <sghimire26@amherst.edu>, Prakhar Agrawal <pagrawal27@amherst.edu>, Pranjal Chalise <pchalise26@amherst.edu>, Ryan Ji <tji26@amherst.edu>, Dineth Wijayawardana <dwijayawardana26@amherst.edu>

Dear Quant Enthusiasts,

I hope this email finds you well! Thank you all for responding to the when2meet survey, I looked at it, and **Sundays 8-9 PM** is the best finalized time for meetings this semester. Please find the locations, dates and other logistics below. And, of course, let me know if you have any questions.

Please be on the lookout for additional email next week detailing what we will cover in our first meeting, and also hang tight for some **interview-style questions** and brainteasers as well that I will be sending in advance of our meeting to practice and solve for fun in our sessions together.

My goal is to make this club more inclusive to all people (*not just to the people who are excited about quant trading*), since there are a lot of different roles available in the industry including **quant research** (more like data sciency-ish), **traditional software engineer**, **quant developer** (mix of both quant researcher and traditional software engineer), **business development analyst**, etc.

Also, as I plan to make a **website** to be titled amherstquantclub.github.io (or the like), which can summarize all the resources that I have encountered in my extraordinary depth of experience navigating the industry myself at firms like **Jane Street**, **Citadel Securities**, **HRT**, **D.E. Shaw & Co.**, etc for everyone including **freshman**, **sophomores**, **juniors** and **seniors** interested in quant, please feel free to reach out to me at dmavani25@amherst.edu, reply to this email, or show up to the first meeting to learn more, and join the website team of software developers that I will be assembling in the coming weeks.

I look forward to seeing you all soon! Please feel free to share this with anyone who you think might be interested.

Best,
 Dhyey Mavani
 President of Quant Club @ Amherst College

I am excited to announce that we will be having meetings every Sunday on the following dates:

Sunday, October 29, 2023

8:00 PM - 9:00 PM Quant Trading Club Meetings (Confirmed) Beneski, 107 - Paino Lecture Hall
