Dear Quant Enthusiasts,

Thank you so much for attending our last meeting, happy homecoming. Sorry for the delay in emailing this time around. If you weren't able to attend, refer to our [github](#) for information. Please join our [slack channel](#) if you haven't already done so for real-time updates.

Also, UChicago is conducting some research with us to build out resources for space. In order to apply, and contribute yur first step towards it, fill out <https://forms.gle/p7sPzJfEi11R7Dtg9>.

Next Meeting Logistics:

- **Date:** Sunday 11/2
- **Location:** Beneski 107 (Paino Lecture Hall)
- **Time:** 7pm - 8:30pm

Agenda:

- Projects Group Discussions + Time to work together & get advice/direction
- Brain Teaser Activity
- Q&A regarding club, recruiting, etc.

Brainteaser:

The solution to last week's brain teaser is attached below. Here is the new brain teaser:

You and a friend play "first to 100", a game in which you start with 0, and you each take turns adding an integer between 1 and 10 to the sum. Whoever makes the sum reach 100 is the winner.

Is there a winning strategy? If so, what is it?

How many trailing zeros does 1000! have?

See you all soon!

Sincerely,
Dhyey

Dhyey D. Mavani
